In connection with the perman paving, utorga pogrer linea wapid be hild along Orange Charleston and Florida avenues from Neventh street to Thomas boulevard draftage canal with openings at all intersecting atvects, which would drain the televi-tory from Mabile avenue to the Madel addition. The Shrereport conduit would drain from Mobile west to Houston. The cost of these storm ewers except Shreveport atenue is inluded in the above figures.

With the completion of this program, ali down-town streets from Shreveport to Houston and from Procter to resenth streets will be conavenues, while Sixth will extend to Mobile and Seventh from the Beaumont roull to the Gulf refinery. Thus, officials say, it is expected to meet section and to serve residents of all sections of the city employed at both relineries through the paving of Seventh. Seventh street, too, will remove a great tonnage of traffic from Procter street, thus prolonging the life of the latter, officials assert. Heavy truck traffic which has so seriously damaged Procter paving will be diverted to Seventh by ordinance, they bromise.

Fouch Up Liver Tonight With Popsinated Calomel-Tired Feeling and Biliousness Will Be Gone By

Nothing kicks back so quickly as disordered liver. Pepeinated Calomel stimulating both the liver and kidneys, thus eliminating the poisons that are

he only medicine that will reach the river. Others may relieve constipation, the trouble. However, ordinary calomel is so drastic in its action that many have deprived themselves of its liver cleansing power until they became acquainted with Pepsinated Calomel, which is not ordinary calomel. Because of its fine English Calomel it cleanses the liver thoroughly with no discomfort. It cannot nauscate or gripe. Hart Drug Company and all reliable druggists recommend and guarantee Pepsinated Calomel to bring relief between sundown and sunup or your noney refunded. Try it-we guarantee you'll feel better tomorrow.

THOUGHT FOR TODAY: He who thinks he can find in himself the means of doing without others is much mistaken; but he who thinks that others cannot do without him is still more mistaken.—La Rochefoucauld.

EUROPE PROSPEROUS SAYS U. S. SENATOR

nator Konnoth McKellar of Tennessee, has read from Europe. Many other senators and representatives have returned from Eutope. Buch tourist has his own viewpoint of ltiions in Europe and what should be denfor the former allies and the former exemics in war-time of the United States.

Senator McKellar has a view point. He found all the countries of continental Europe presperous; he found bumper erops everywhere; he found the people well fed; he found them well clad. He would have workern of all nations on the other side of the ocean return to productive employment and cease to hate their fellow men and cease to follow statesmen of the old order before empires crashed and thrones tumbled.

Senator McKellar is a democrat. He says all the countries that were engaged in war not many years ago are able to pay the loans advanced in war time by the United States government and that they should be compelled to pay. If all these erstwhile war ridden countries are prosperous, if the crops harvested are generous, then why shouldn't they fund their loans and begin the payment of interest on the same!

Brance has taken possession of the Ruhr and France intends to remain in the Ruhr until her demands have been conceded. Wouldn't it be awful if the United States sent an army to Europe to compel one of its many debtors to come across with interest or principal and threaten the seizure of territory or property if the money was not forthcoming? Lloyd George says that Europe is on the brink of

Senator McKellar says that Europe is prosperous and well fed. Who knows?

WET IN SPORTS

Three Vermont republicans made the race for primary nomination for United States senator. The winner declared for the eighteenth amendment and the Volstead act just as written. He received 26,446 votes. Another republican declared for a modification of the Volstead act so that non-intoxicating beers and wines might be legalized by congress. While the third seeker for a toga told the people that he was in favor of the Volstead act being administered with common sense. The moist candidates had a combined vote of more than twenty-three thousand.

Vermont is said to be the dryest of any states and the republicans are as numerous in Vermont as democrats are in the hills of Arkansas. There is a democrat in the field as the candidate of his party who insists that it is time for some sort of decent repeal of the Volstead act." This democrat, who is both wet and wicked, is a cousin of the republican president of the United States.

What is wrong with New England! Are the New Englanders getting away from the teachings of the Puritan fathers?

AMERICANS GOOD SPENDER

Americans are good spenders. Money spent by American tourists abroad in 1922 amounted to three hundred and fifty six million dollars. according to estimates just made public by the United States Department of Commerce, This survey shows that tourists' expenditures have increased since 1919 and that they probably averaged each year about one hundred and seventy million dollars during the period from 1896 to 1914. It is said that Americans spent traveling abroad this year more than four hundred million dollars. Travel is a great educator and civilizer. It transforms narrow eyed shriveled localisms into wide eyed men of vision and information. God pity the ignorant or those who never get out of the ruts where they were placed at the hour of birth.

FREE SPEECH

George W. Wickersham of New York is a former attorney general of the United States. And in the free American state of Michigan the regents of the state university denied the use of the auditorium to the former attorney general because he announced that he would speak on the League of Nations. Now the faculty and student body are going to hear Wickersham on November 2, if all the auditoriums in Michigan are closed to him.

Is a discussion of the League of Nations a political question? Many of the foremost political affiliations, are advocates of the League and favor the participation of the United States in the proceedings of the international body. Now why should the regents of a state supported university attempt to thrattle free speech?

American jeweler has a plan to reduce different to a minimum. It calls for negligent ands to take home gifts from the diamond m at appropriate times. This is where all Swemen will line up for the proposal and it without a discenting vote.

ANOTHER SELF-ELECTED HERO IS CANDIDATE

Governor W. H. McMaster of South Dakots has announced his candidacy for United State. senator on the republican ticket. He promises that if elected to "align himself with those senators who are making a heroic fight for the rights of the people and to work to the best of his ability with other senators not only to better agriculture but to put it on a plane with other industries and commercial inter-

Governor McMaster is an artful dodger. He is Janus faced. He is riding two horses going in opposite directions. Now who are the heroes of the senate? Are they the men who make election pledges that they cannot redeem, who appeal to class prejudice, who elamor for government price fixing of product, who would have the government buy the surplus of any American staple when the market price goes below the cost of produc-

This South Dakota candidate for senatorial honors appears to be a cross between a regular republican and a Magnus Johnson nonpartisan. All real statesmen favor legislation beneficial to the farmers, all real statesmen are for the rights of the people, all real statesmen are for prosperity for the entire nation, and not for any particular commonwealth, community, class or calling,

Governor McMaster should name the heroes of the senate. He should separate the wolves from the sheep. He should place the hares on one side and hounds on the other side.

Why should a statesman or a man who hopes to be a statesman some day throw chunks of bunk at the heads of the people?

Calumet is called "the World's Greatest Baking Powder" because it is used by more housewives-more chefsmore railroads-more restaurants -more hotels than any other brand.

Calumet is called the "Economy Baking Powder" because no other brand on the market will produce bakings at such a low cost. Its dependable and unfailing action means no loss of time, money or materials.

Calumet is called for in thousands of stores daily because a better leavener cannot. - and is not made - because a large can contains full 16 ounces and some brands come in 12ounce cans - once tried it is always used.
